

Research Experience for Undergraduates (NSF-REU): Liquid Crystals and Advanced Materials

Undergraduates: join us for exciting summer research!

- Optoelectronic/LC displays
- Organic synthesis
- Biological membranes
- Electrochemistry
- Bioseparations
- Nanomaterials

Summer Research Program June 3 - August 9, 2019

- Great research experience
- Ethics and training sessions
- State-of-the-art facilities
- \$5000 stipend
- Social events

**KENT
STATE**
UNIVERSITY
Department of Chemistry and
Biochemistry and
the Liquid Crystal Institute
