

WPI

Summer Research Experience for Undergraduates Program

Students with exceptional interest and qualifications are encouraged to apply for the 2019 Research Experience for Undergraduates (REU) program in the WPI Department of Chemistry and Biochemistry sponsored by the National Science Foundation.

The 10-week program begins on May 29 and includes a \$5,000 stipend and WPI-provided on campus housing and travel subsidization.

Research Options in Chemistry and Biochemistry

- Non-Covalent Catalysis and Drug Discovery
- Membrane Morphology
- Homeostasis by metal ion transporting proteins
- Phospholipase protein interactions for gene silencing
- Photoactive hybrid materials for molecular storage

Apply online at https://gradapp.wpi.edu/register/Chemistry_REU_2019
Applications are due by March 1, 2019
