

Interdisciplinary Renewable & Environmental Collaborative

Summer Research Experience for Undergraduates (REU) at
University of North Dakota

Exciting research projects in

Renewable Materials

Alternative Energy

Atmospheric Measurements with Biology insights

Environmental Chemistry

APPLICATIONS DUE:

FEBRUARY 28, 2019

Apply online at:

https://arts-sciences.und.edu/chemistry/und_reu_irec/

Applications will open in November 2018

- 10 week program
- \$5,000 stipend & travel allowance
- On-campus housing and meals
- Research experience with faculty mentors from different disciplines
- Designed for chemistry, chemical engineering, atmospheric science majors
- Training in science communication and community outreach
