

 **SUMMER
UNDERGRADUATE
RESEARCH PROGRAM**

OPPORTUNITIES FOR FACULTY-STUDENT RESEARCH TEAMS OR INDIVIDUAL STUDENTS

MON. MAY 21 - FRI. JULY 27, 2018

DUQUESNE UNIVERSITY • PITTSBURGH, PA

Impact your professional career significantly this summer by being part of a research team that solves meaningful problems in science and society.

The 10-week National Science Foundation (NSF) Research Experiences for Undergraduates program at Duquesne focuses upon:

- Students that do not have research opportunities at their home institutions
- Academic productivity in terms of peer-reviewed scholarly publications
- Training on advanced instrumentation, AFM-STM, SEM, NMR, X-ray, TOF-MS and supercomputing
- Enriched communication skills in writing and speaking
- Career development and networking opportunities through on-campus seminars and off-campus presentations
- Heightened awareness of ethical behavior and safety issues in the laboratory

Special benefits available:

- Student stipends starting at \$4,500
- Faculty stipends starting at \$5,000
- Free housing
- Travel assistance

Application Information

Deadline for all applicants:

March 1, 2018

For Duquesne students:

duq.edu/urp
