

CEMITURE

Collaborative Multidisciplinary Investigations
Through
Undergraduate Research Experiences

Georgia Southern Chemistry & Biochemistry invites
YOU to share and broaden
YOUR scientific knowledge in

Summer 2019

- 10-weeks of Collaborative Research
- Stipend: **\$5500**
- Housing & Meal Plans provided
- Professional Development and Networking

*Multidisciplinary Projects in
Chemistry, Engineering, Biology & Materials Science:*

- Innovations in Cancer Therapy
- High Performance Lithium Ion Batteries
- Novel Procedures & Catalysts in Synthesis
- Biodegradable & Nanocomposite Materials
- Toxicology
- Sensing & Magnetism
- Pro-drug Development
- Treatment of Traumatic Brain Injury

Application Due: February 22nd, 2019
