

Research Experience for Chemistry Undergraduates

May 27 – Aug 2, 2019

Highlights:

- **\$5200 for the 10 week program plus paid room and meals and a \$750 travel allowance!**
- Work one-on-one with faculty and graduate students from the Department of Chemistry in the areas of Biosecurity, Analytical, (Bio)Materials, Environmental, Inorganic, Organic, Physical, Theoretical Chemistry
- The Chemistry REU Program provides research opportunities for students who have had limited exposure to independent research at their home institution. Students who have completed one and preferable two years of chemistry coursework from a 4 year or community college are eligible to apply. **Rolling admissions begin February 15th.**
