

Summer 2019 CheMIE REU

Join the Texas State University Department of Chemistry and Biochemistry at our beautiful San Marcos, TX campus for a traditional research experience while exploring how basic research contributes to molecular innovation, entrepreneurship, and economic development in the molecular sciences!

- Students will receive a \$5000 stipend and free room and board, including housing in campus dorms and a campus meal plan
- Site visits to Texas chemical companies, and an immersive 10-week boot camp focused on training participants in key concepts of technology-based companies
- Social events including tubing down the San Marcos River!!

May 31, 2019—August 8, 2019
